ADRIANA LATORRE
Mobile Developer

PERSONAL STATEMENT

After 15 years of experience as a professional photographer, I decided to **dream** further and take a new path in the field of **technology**.

I graduated in a preparatory course were I learned **JavaScript / Node.js** stack, using **ExpressJs, Sequelize, MogoDb, MySql, Multer, Bcryptjs, Jsonwebtoken** and also **React** and **React-Native**, using **Jest** for **unitary test**.

And that´s when my interest in the **mobile** universe began!

Now I **dedicate** all my time and **energy** to discover all I can in **React-Native** and also **Kotlin** for native **Android** development.

WORK EXPERIENCE

• **Givisiez Company**
  2023 – PADA Allergy Project

Mobile Team - I´m part of the **React-Native TypeScript** Mobile Team, which develops an **application** that registers patients who suffer from allergies and presents i**nformation** to their registered doctor regarding treatment, as well as their vaccine schedule. The team is made up of **Front-end, Back-end, Q.A, Data Engineer** and **Cyber Security** and we are organized in the **Scrum methodology**.

Now I'm looking for an **opportunity** to **grow** with new challenges.

LANGUAGES

• Portuguese – Native
• English – Advanced
• Spanish – Advanced
